

WESTROCK INNOVATIVE SOLUTIONS

Box On Demand

Variable Packaging Solution

Technology engineered for today's dynamic packing environment

Right-sized shipping boxes made on site and on demand

- Cut shipping costs
- Eliminate box inventory
- Streamline packing
- Handle variable product shipments with ease

Variable packing is the standard

To meet the high demand for online ordering, both manufacturing and retail are forced to pack larger, more variable, and oddly sized items for shipment. Making right-sized boxes, per order gives you control over your shipping costs while decreasing the likelihood of product damage during shipment.

Ideal for many operating environments

- Fulfillment/e-commerce
- Manufacturing
- Doors/blinds
- Home furnishings
- Cabinets and woodworking
- Large format printing and books
- TV and electronics overboxing
- Fabricated metal parts
- And more!
