

WESTROCK INNOVATIVE SOLUTIONS

EnShield®

Poly Replacement

Consumer tastes vary. Dislike of unsightly grease stains is universal.

EnShield® paperboard delivers exceptional grease resistance without negatively impacting the environment – or your budget. Ideal solution for **Retail Food & Food Service Applications**

BAKERY

TAKEOUT

FROZEN FOOD

You don't have to resort to poly-coated board or fluorocarbon-treated packaging to eliminate visible grease stains. Instead, you can turn to WestRock EnShield®. It delivers unique performance characteristics that make it an ideal solution for many retail food and foodservice applications, including takeout, bakery and frozen food.

Oil and Grease Resistance

Equivalent performance to poly-coated SBS board for many applications in takeout, bakery and frozen food

No LDPE

Enables brands to make excellent sustainability claims.

No Fluorocarbons

Eliminates this key sustainability concern

Repulpability

Fully repulpable, improving packaging end-of-life options versus poly-coated SBS

Improved Lead Times

Since EnShield is not extruded, you can expect improved lead times that compare to lead times of other on machine paperboard grades.
