

WESTROCK INNOVATIVE SOLUTIONS

PAK-kraft™

E-commerce Solution

Fiberboard Mailer

Lightweight and natural, PAK-kraft™ e-commerce fiberboard mailers are engineered to contain and protect your products through even the roughest supply chain conditions, giving you the opportunity to right-size your packaging and avoid unnecessary dimensional (DIM) weight charges.

PAK-kraft™ mailers are available in both standard and custom sizes, making it easy to right-size your packaging, avoiding unwanted void fill and unnecessary dimensional (DIM) weight charges. A brand conscience alternative to plastic bubble-lined mailers, PAK-kraft™ is produced from responsibly sourced, renewable fibers that provide a clean, uniform and smooth surface.

Make sure your packaging is sending the right message on delivery day. Consumer friendly, brand boosting, product protecting, readily recyclable; PAK-kraft™ has it covered.

Benefits

- Sustainable, fiber-based solution for curbside recycling
- Easy handling for single or multiple packing stations
- Eliminates need for excess void fill
- Tear strips for ease of opening and tamper evidence
- Fiberboard substrate offers exceptional puncture resistance
- Designed to protect corners against rough handling
- Clean, uniform surface ideal for custom graphics
- Peel and seal closure removes need for other tapes and adhesives

Optional Features

- Custom graphics
- Dual peel and seal closures
- Custom sizes
