

Aria® & Prelude®

Elevate the experience

Aria® and Prelude® raise the standards for cosmetic dispensers by helping brands deliver on consumers' desires for control, cleanliness and elegance. Both pumps feature superior product dispensing, a standard lock for extra security and portability, and our patented Pure Path™ technology which ensures sensitive formulas are protected by a metal-free fluid path. And, because these dispensers are produced globally, they offer brands greater supply chain ease and speed to market. Aria and Prelude truly defy convention to deliver superior results to the skin care market.

How brands take shape®

Consistent. Effortless. Versatile.

Fulfill customer desire for the essentials of skincare with Aria® and Prelude®

- Low force-to-actuate and robust pump engine for smooth delivery
- Low output dispenser and hygienic, wipe-away head design for a cleaner experience
- Locking feature for portability and security
- Metal-free Pure Path™ engine for better product protection
- High compatibility with complex formulas including SPF, silicone, retinol, salicylic acid and others
- Hot stamping, metalization and other decoration or customization available
- Head, closure and overcap available for customization
