

MWV Healthcare
HiMark™

With HiMark™, finding the right metered dispensing system has never been easier. One of our most versatile pumps, HiMark is suitable for many types of products, including difficult, viscous and aggressive formulations. It is available in a wide range of dimensions, finishes, spray angles and outputs.

Features & benefits:

- Extensive product variety with many closure sizes
- Easily customised with numerous aesthetic options
- A range of nasal, oral and topical adapters are available
- Dose counter available
- Safety clip available
- Suitable for non-drip sprays
- Wide output range with many options
- Good performance with viscous formulas
- For aggressive products, alternative materials can be provided for critical pump components

Closures

Output

0.050, 0.070, 0.100, 0.130, and 0.190ml

Spray and cream actuators*

ER series actuators
Nebuliser insert ensures a fine and uniform spray

ERT series actuators
Nozzle for dispensing cream and lotion products
Nozzle length: C2=2mm, C3=3mm or C5=5mm

* These actuators can be supplied assembled onto the pump or separately

Special throat actuator

**MTA
Fitted with a nebuliser insert
