

Pearl™

Deliver the ideal experience

For customers seeking an enhanced, sensorial experience, Pearl™ outshines the vast majority of dispensers. This elegant collection of airless pumps delivers clean and smooth dispensing at every touch. Customizable and comfortable, Pearl is the ideal dispensing solution, combining form and function.

Intuitive. Smooth. Ideal.

When it comes to meeting customer demand for ideal dispensing, Pearl™ shines bright

- Extremely low force-to-actuate
- All plastic for clean, metal-free dispensing
- Excellent evacuation rate
- Fewer strokes-to-prime
- Low part count and light weight for additional supply chain benefits
- Features Rolling Bellow Technology™ to ease the filling process, provide superior formula protection and allow for comfortable, consistent dispensing
- Various aesthetic design options including standard and Elegance head designs
- Fully customizable
