

WestRock

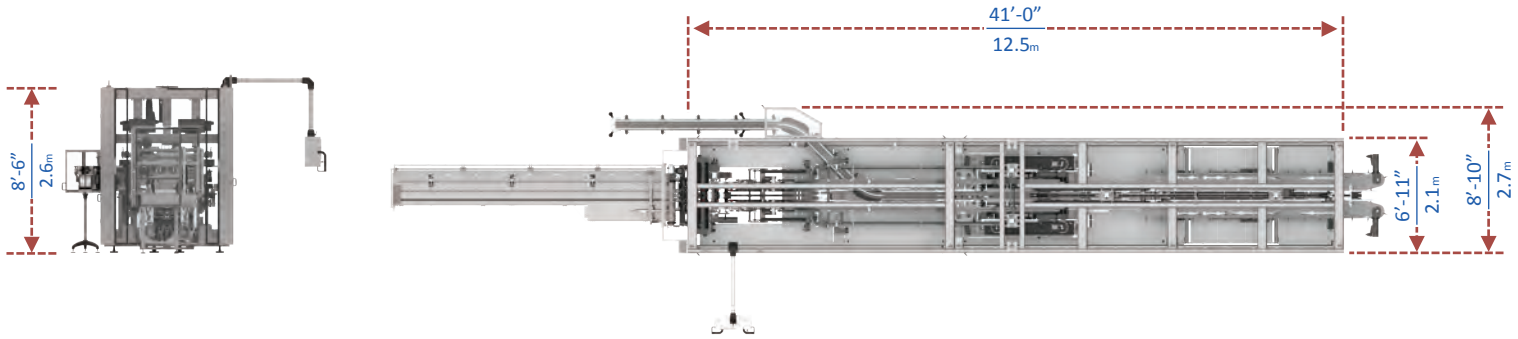

Cluster-Pak[®] Ultima HF

Combination of high speed and flexibility

WestRock Cluster-Pak[®] Ultima HF sets the industry standard for speed and flexibility for dedicated can wrap machines.

- Offers flexibility to produce a full range of Cluster-Pak[®] wrap styles and features, including bar-code masking, StrongPak[™] retention gussets, or ad panels
- Enables easy operation and fast changeover with servo drive system and automatic subassembly repositioning
- Improves line efficiency with optional integrated tertiary packaging module

Features

- Omni-directional touchscreen operator panel
- Servo control system
- Large capacity hopper (18 minutes at maximum speed)
- Automatic motor-driven changeovers
- Machine mounted electrical cabinet

Primary Container

- Aluminum cans
- Diameter between 53mm & 66mm
- Height between 85mm & 200mm

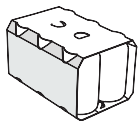

Package Formats

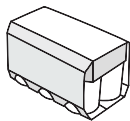

- Standard: 2x2, 2x3
- Optional: 2x4 through 2x6

Package Styles

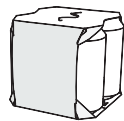

Full range of Cluster-Pak® features

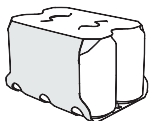

Standard wrap

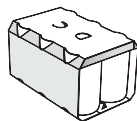

Full tuck ad panel

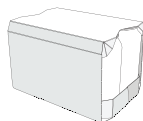

StrongPak™

Chime Lock™

Standard ad panel

Barcode masking

Maximum Speed

- 450 packs/minute

Air & Power Requirements

- Air: 5 Nm³/hr at 6 bars
- Power: Customized to specific customer requirements

Changeover

- Simple, automated and highly repeatable changeovers that optimize your filler throughput

Options

- Integrated tertiary packaging module
- Integrated rotator/divider module
- Auto lubrication system
