# SMART Serv®

## How is it unique?

SmartServ carry-out containers are an innovative approach to carry-out. The cup-like structure gives operators a take out solution that can be used for many different applications. It is cost effective, functional, and made from a sustainable natural resource. SmartServ is available in white or you can choose from one of our stock print designs: Inspired by Nature, Fresco, Printed Design, or Dragon. SmartServ containers can also be custom printed to include your logo and design. This is a great way to send your branding message home with your customers.

## SmartServ is great for a variety of foods:
