## WestRock **NatraLock® Ultra Seal** Appealing. Safe. Functional. Sustainable.

Now there is a sturdy, flexible, more sustainable alternative to traditional blister seal and clamshell applications. WestRock NatraLock<sup>®</sup> UltraSeal features stellar graphic reproduction while allowing heat and RF sealing on a wide range of thermoform blister materials. Uniformity and consistency from roll to roll and sheet to sheet make NatraLock Ultra Seal ideal for high-speed converting, filling and sealing applications. It's perfect for promotional messages, graphics and compliance information for trade seal blister packaging. With SBS and CNK offerings, NatraLock UltraSeal is uniquely engineered to be used as a clamshell replacement that maximizes shelf appeal and enhances sustainability.

## **Packaging Uses**

Beauty and Personal

Media and Electronics

Sporting Goods

Home Improvement

Solid Bleached Sulfate

Coated Natural Kraft<sup>®</sup>

CNK<sup>®</sup> Paperboard Coated Unbleached

Extruded with Heat Seal Coating

Kraft

SBS Paperboard

Automotive

Healthcare

Care

Toys

Tools

Product Classification Polymer-Coated

## What You Can Expect from Us

Heat Seal Consistently seals to a wide variety of thermoformed blister matching approximate including APET, RPET, PETG, RPETG, PVC and PLA.   Low Temperature Low-temperature sealing yields increased line speed, minimize product damage and reduced ink degradation. With a dwell tir than other hot-seal coatings, you'll see improved results and low than other hot-seal coatings, you'll see improved results and low provides improved efficiencies and maximum throughput on h filling equipment.   Converting Efficiency Direct printing eliminates the need to apply heat-seal coating, converting efficiency and reducing inventory costs.   Consistency Roll-to-roll and sheet-to-sheet consistency makes Natralock SE high-speed converting, filling and sealing applications.   Recycled Fiber CNK is produced with up to 15% recycled fiber, providing an op meeting your corporate sustainability goals.   Additional Product Information Sustainability Made with recycled fiber (CNK version).   All WestRock North American paperboard mills are certified to SFI® PEFC™, FSC™ Chain of Custody Standards. Contact your WestRock sales representative for certified fiber a for this product.   Quality Produced at an ISO 9001 certified facility.	on combines ckaging.
