# WestRock **PolarShield**<sup>®</sup> **PET A worthy option when moisture isn't an issue.**

When you desire strength and wet conditions aren't a factor, turn to WestRock PolarShield<sup>®</sup> PET. It's a perfect choice for frozen and bakery applications. Use it to create packages capable of going from shelf or freezer directly to a conventional or microwave oven. This eliminates excess packaging expenses. Beyond performance, PolarShield PET also looks attractive enough for consumers to take to their dining table.

## Region

EMEA (Europe, the Middle East and Africa)

#### **Packaging uses**

Frozen Foods Retail Foods Foodservice

## Product Classification

Polymer-Coated Solid Bleached Sulphate SBS Paperboard

GΖ

## What You Can Expect from Us Thermal Stability An extruded barrier polymer, available in a clear option, enables performance from -40°F (-40°C) to 428°F (220°C). **Product Uniformity** A smooth surface delivers outstanding ink holdout and best-in-class printing consistency. Polymer coat-weight uniformity offers improved efficiencies and maximum throughput on high-speed forming and filling equipment. Single Package Delivers savings and source reduction over alternatives that require outer Solution cartons or wraps. The result is a cost-efficient packaging solution with an improved sustainability profile. Heat Sealability Outstanding heat-sealing performance across a range of technologies, including hot air, platen and microwave. This means you can expect improved efficiency and ultimate flexibility. **Additional Product Information** 100% PEFC Certified BMT-PEFC-0332 Chain of Custody Food Contact Meets multiple national requirements for food contact packaging, e.g., US, Canada and the EU. Contact your sales representative for information on specific markets and end uses. Kosher documentation available. Quality Produced at an ISO 9001 certified facility. Environmental Notices under US California Proposition 65 and the EU REACH regulation and Safety are not required. Elemental chlorine free (ECF) bleached fibre. Meets heavy metal limits of the US Model Toxics in Packaging rules and Article 11 of EU Directive 94/62/EC.
