

Wide Format Offering

Carolina[®] Coated Cover

Define your image

From signage and banners to posters and displays, Carolina® gives your brand the consistency and quality customers expect.

With its clean-white brightness, substantial feel and excellent printability, Carolina helps your in-store signage stand out and stand up to customer's high expectations.

Sharper graphics

Carolina's paper-based media is made with a proprietary coating that delivers sharper, crisper graphics to elevate your brand image.

Ideal shade

Carolina delivers the perfect shade of white—not too blue, not too yellow. Coupled with 92 brightness, it delivers optimal visual impact.

Excellent matching

By matching the shade to the full Carolina C1S and C2S offset and digital coated cover line, Carolina wide format delivers consistency across all print components—including brochures, pocket folders, table tents and specialty packaging.

Greater sturdiness

Carolina's strength and stiffness provide a more substantial look and feel for signage, banners and displays.

Full recyclability

All Carolina wide format stocked products are FSC® certified and made from natural renewable resources.

Outstanding results

Carolina wide format provides exceptional print results on a wide range of industrial-level UV flatbed and UV hybrid presses. There are many ink systems available for non-UV presses; therefore, we recommend testing a small sample of Carolina before printing the full run.

Carolina C1S Wide Format Offering – Sheets

Caliper	Basis Weight		Sheet Size Inches	Packages		Skid*			
	24 x 36	gsm		Sheets/ Package	Weight (lbs)/ Package	Sheets/Skid	Packages/Skid	Weight (lbs)/Skid	Skid Item Number

			50" x 100"	250	828	500	2	1,655	DS2450100
			60" x 120"	250	1,192	500	2	2,383	DS2460120
48 pt	512	835	48" x 96"	250	1,365	250	1	1,365	DS484896

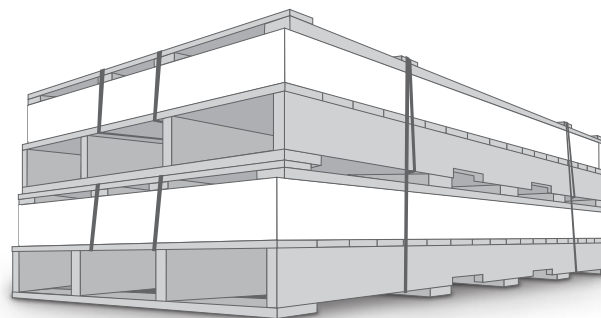

Customers may combine various items from the above list (in full skid quantities) to achieve greater shipping weight.

*Please note that to achieve maximum freight density, skids may be stacked. Carolina wide format sheets that are part of the stocking program are FSC certified.

All calipers except 48 pt are shipped in increments of two 250-sheet skids (500 sheets total) bundled as shown. Skids can be easily separated for individual sale of 250 sheets once received. The 48 pt is shipped as a single 250-sheet skid.

Larger sheet count skids or non-standard sizes are available as custom orders; inquire with WestRock sales or customer service. Skids are subject to a maximum net weight of 2,500 lbs. Custom orders subject to 5,000 lb. minimum order per SKU.

Always ensure delivery location has entry clearance and proper unloading equipment to safely handle wide format skids ordered.
