**What You Can Expect from Us**

- Consistency** Our fully integrated manufacturing facility combines both pulp and paper processing on the same site, which ensures highly uniform color and shade for dependable printing and converting performance.
- Shade** Continuous on-machine color measurement and monitoring coupled with robust post-production quality control processes contribute to a consistent shade.
- Convertibility** State-of-the-art process controls provide consistent caliper, basis weight, and moisture content from roll to roll and order to order, which ensures excellent performance folding, die-cutting and gluing equipment.
- Durability** Unique pulp fiber formulations deliver excellent stiffness, tear resistance and fold endurance that holds up over years of use.
- Recycled Fiber Content** Depending on the grade, you can choose from 10% or 30% post-consumer recycled fiber content. This is especially attractive to retailers and government agencies seeking to meet sustainability goals.

**Additional Product Information**
