

## Make a great impression

# Tango® Coated Cover C1S

### Product Summary

Superior print performance. Superior product aesthetics. Tango consistently delivers on both. Unsurpassed in its proven reputation for outstanding runnability, printability and consistency on press and through converting.

### Features and Benefits

**Outstanding ink holdout** Printed images look richer, have greater depth and are more lifelike, for optimum visual appeal.

**Better dot integrity** Proprietary coating, coupled with an ultra-smooth surface, reduces dot gain so that printed images are sharper—ideal for capturing fine detail. Better dot integrity also enhances color control on press to facilitate matching to a proof in less time.

**Clean-white styling** Unique clean-white shade from 8 pt through 24 pt caliper ensures crisp, matching colors and contrast, while maintaining color fidelity on press.

**Superior consistency** Six Sigma manufacturing methodology coupled with a solid bleached sulfate design provides improved consistency from run to run compared to multi-ply products that utilize varied fiber sources for the middle layer.

**Quality tactile feel** Specialized finishing process results in a coated cover that offers greater heft, so the finished printed piece “feels” as good as it looks.

**Fade resistance** Paper shade is achieved using colorfast dyes to provide improved color integrity and extended shelf life for printed material.

### Product Uses

- Signage
- POP Displays
- Direct Mail
- Menus
- Greeting Cards
- Trading and Game Cards
- Annual Report Covers
- Brochures and Inserts
- Specialty Packaging

### Product Classifications

#### Product type

SBS Paperboard/GZ C1S  
Coated Cover

#### Structure

Solid Bleached Sulfate  
Double Clay Coated One Side

## Tango® Coated Cover C1S

Caliper	Basis Weight 24" x 36"	GSM	Gloss	Brightness	Whiteness	Color		
						L	a	b
8 pt	112	180	51	92	122	94.5	1.9	-8.0
10 pt	124	200	51	92	122	94.5	1.9	-8.0
